

Sedge Identification Workshop

Date: July 18 and 19, 2013

Time: 9:00 a.m. both days

Location: Central Oregon Community College
Science Center, Room 120
Bend, Oregon
(see map: <http://www.cocc.edu/maps/bend-campus-map>)

Cost: \$250

Instructors: Dr. Barbara Wilson, Dick Brainerd, and Nick Otting

Carex Working Group is pleased to offer a workshop on *Carex* identification on July 18 and 19. This two-day workshop will emphasize sedges of central Oregon. The first day will be spent in the lab learning sedge morphology and terminology and keying fresh and dried material. Participants are encouraged to bring their own sedges to work on. The second day will be spent in the field and will emphasize field identification and ecology of sedges.

This workshop will be useful for resource managers, natural area managers, restoration planners, and anyone who wants to cultivate an irrational passion for the less showy plant groups. Workshop participants should have basic plant identification skills.

Workshop Materials

Text: Field Guide to the Sedges of the Pacific Northwest by Barbara Wilson, Richard Brainerd, Danna Lytjen, Bruce Newhouse and Nick Otting.

Note: If you already own the text, please bring your copy. We will have a limited number of copies available for participants to use during the workshop.

Other items to bring:

- 10x hand lens
- Dissecting tools (forceps, needle probe) if you have them
- Notebook
- Appropriate field clothing: hat, raingear, etc.
- Local sedges from your home area, to identify in the lab
- Sack lunches (restaurants are available near COCC for the 1st day)

Dissecting microscopes and a limited quantity of dissecting tools will be provided.

Registration Form
